ANDREW GARBARINO VOTED FOR OVER $1 TRILLION IN HEALTH CARE CUTS

Now New Yorkers are losing coverage, facing higher costs, and watching access to care disappear across Long Island.

Last year, **Andrew Garbarino voted with Donald Trump** to slash over **$1 trillion** from Medicaid and the Affordable Care Act to pay for lavish tax cuts for billionaires and big corporations. New Medicaid eligibility limits will kick millions off coverage, while funding restrictions rip away money from hospitals, clinics, and nursing homes. They also ended the ACA premium tax credits that made coverage affordable for 22 million people — forcing working families to absorb skyrocketing premiums.

On Long Island, three facilities are at risk of cuts or closure or have already closed after Andrew Garbarino's vote sparked this crisis. For many New Yorkers, getting care means traveling farther, waiting longer, paying more — or going without it altogether. While Garbarino campaigns with Donald Trump, New Yorkers are struggling to pay their bills and access the care they need.

> Andrew Garbarino claimed the bill he voted for did "not cut Medicaid benefits" for many New Yorkers.

REAL PEOPLE, REAL CONSEQUENCES

"

We got a letter that our health insurance bill would rise about 20% next year — our EmblemHealth plan will cost $862 a month, $140 more than now. We really can't afford it. We're both in our 70s and will have to figure out how to manage the extra cost.

A couple of weeks ago I went to the emergency room. When I got the bill, it was $3,000 — and because I recently lost my job, I didn't have coverage. I can't afford to get sick. It's a big issue for us.

NEW YORKERS ARE SICK OF IT.

Andrew Garbarino chose tax breaks for billionaires over the health care of the families he represents. It's time to restore the tax credits, reverse the Medicaid cuts, and lower costs — before more Long Island families lose the care they depend on.
