STATEWIDE

TOM TIFFANY VOTED FOR OVER \$1 TRILLION IN HEALTH CARE CUTS

Now Wisconsinites are losing coverage, facing higher costs, and watching access to care disappear across the state.

Last year, **Tom Tiffany** voted with Donald Trump to slash over **\$1 trillion** from Medicaid and the Affordable Care Act to pay for lavish tax cuts for billionaires and big corporations. New Medicaid eligibility limits will kick millions off coverage, while funding restrictions rip away money from hospitals, clinics, and nursing homes. They also ended the ACA premium tax credits that made coverage affordable for 22 million people – forcing working families to absorb skyrocketing premiums.

Across Wisconsin, **12 health care facilities are at risk or already closed** after Tom Tiffany's vote sparked a health care crisis. For many Wisconsinites, getting care means traveling farther, waiting longer, paying more – or going without it altogether. While Tiffany campaigns with Donald Trump, families across the state are struggling to pay their bills and access the care they need.

Tom Tiffany claimed the bill he voted for “does not cut Medicaid for mothers, children, people with disabilities, or seniors.”

The reality tells a very different story.

REAL PEOPLE, REAL CONSEQUENCES

"

As a small business owner with fewer than 50 employees, I've watched the so-called "Big Beautiful Bill" drive up my cost of doing business, and it's my staff who are paying the price. ... Early childhood teachers deserve real access to healthcare and medication, not a Congress that makes it harder to afford both. Rep. Tom Tiffany voted for this bill. We can't trust him with our healthcare.

I'm a cancer survivor—colon cancer—for six years...And with the new bill—the big crappy bill—I lost the subsidies that were in place before. And last year, I paid \$938 a month for my health insurance for my wife and I. This year, it's \$2,743 a month. That's a \$21,600 increase.

I don't know what we're going to do...We had no idea this was coming, and so we're just finagling, trying to find ways to make sure that we're going to be able to afford this.

This is so incredibly shortsighted and feels so much like chaos for the pure sake of creating chaos... I don't think I'm alone here. I think you're going to see small businesses closing, and this is what makes Milwaukee and the greater state of Wisconsin special: our small businesses.

I know friends who said that their costs are going up \$12,000, \$16,000, \$24,000, and they have no choice because they have health issues and they have to have medications...My heart just breaks for them.

To go from zero to \$2,300 (per month) is financially a huge hit.

WISCONSINITES ARE SICK OF IT.

Tom Tiffany chose tax breaks for billionaires over the health care of families across Wisconsin. It's time to restore the tax credits, reverse the Medicaid cuts, and lower costs — before more Wisconsin families lose the care they depend on.
